WORK EXPERIENCE

Certn

Tech Lead / Manager

Jul 2022 - May 2023

- Led and managed an agile team of software developers ranging from senior engineers to junior engineers in Certn that automates background checks.
- Hands on with coding, maintaining repo standards along with frequently working with QA, Security and DevOps.
- Our team was responsible for growth and maintenance of integration with Application Tracking systems, Enterprise client initiatives and SaaS API.
- Collaborated with product team, architected and documented high-level software requirements, ensuring successful end-to-end delivery.
- Successfully launched four complex projects, unlocking substantial value in the millions.
- Implemented various team processes, enhancing stakeholder visibility and streamlining delivery, reducing developer pressure.

Marsgoat

Founder / Tech Lead / Manager

Aug 2019 - Mar 2022

- Worked on a startup that focuses on outdoor group activities and had 12 employees out of which 4 were software developers.
- Utilized Kanban Agile for SDLC and feature delivery, ensuring efficient project execution.
- Launched one App to both Android and iOS platforms, created one platform framework and one failed product.
- Partnered with Venture For Canada, securing a 75% salary subsidy for employees.
- Established a nationwide Flutter community, subsequently funded by Google.

Amazon

Software Developer

Apr 2013 - Apr 2019

- Collaborated with cross-functional teams to define requirements, create engineering documentation, and successfully launch products.
- Contributed to key products, including Amazon Cloud Drive, Amazon Shopping App for Android, and Amazon Payment Product.
- Facilitated extensive cross-team collaboration, fostering synergy with sister teams and external partners.
- Streamlined release processes, introducing mechanisms for smooth releases across teams.
- Played a key role in recruitment, onboarding team mates and team growth efforts.
- Maintained products through on-call responsibilities, ensuring minimal customer impact.

Hewlett Packard Enterprise

ETL Developer

Dec 2009 - Dec 2011

- Spearheaded ETL processing of Telecom's data, predominantly on Teradata DB.
- Designed ETL scripts to seamlessly transfer data from OLTP to OLAP systems.
- Automated manual tasks, enhancing efficiency and productivity.
- Provided mentoring and guidance to fellow ETL Developers.

EDUCATION

George Mason University

Master's, Computer Science

2012 - 2013

SKILLS

- Java, Spring, Python, Django, Dart, Flutter, JavaScript, React, AWS, Azure, GCP, HTML, CSS
